

Richard J. Daley College 7-Step Institutional Assessment 5-year Cycle Sp2022-Fa2027

Assessment Stage	Description	Sp22 Cycle1	Fa22 Cycle1	Sp23 Cycle1	SU23 Cycle1	Fa23 Cycle2	Sp24 Cycle2	SU24 Cycle2	Fa24 Cycle3	Sp25 Cycle3	SU25 Cycle3	Fa25 Cycle4	Sp26 Cycle4	SU26 Cycle4	Fa26 Cycle5	Sp27 Cycle5	SU27 Cycle5	Fa27
Research and Design	Determine the type of data needed to address research questions, the assessment instrument(s) needed, and the types of analyses required. Determine the minimum number of students (sample size) necessary for statistical significance (power).	ISLO2		ISLO6			ISLO1			ISLO4 ISLO5			ISLO3			Revise ISLOs Or Reassess Improved ISLOs		ISLO TBD
Pilot Assessment Instrument	Provide a random sample, if possible, and pilot instrument. At this stage, check reliability or validity.	ISLO2		ISLO6			ISLO1			ISLO4 ISLO5			ISLO3					
Administer Assessment Instrument	Select course sections and students for whom the assessment should be given.		ISLO2			ISLO6			ISLO1			ISLO4 ISLO5			ISLO3			
Data Analysis	Analyze the data obtained from the assessment.			ISLO2			ISLO6			ISLO1			ISLO4 ISLO5			ISLO3		
Results, Discussion	Based on the research questions, determine the format in which the data will be displayed (e.g., graphs, tables, etc.). Present the results to stakeholders (e.g., students, faculty,				ISLO2									ISLO4 ISLO5				ISLO3

<p>& Next Steps</p>	<p>and administration) Obtain feedback and recommendations from stake holders. Based on feedback from stakeholders provide recommendations for change that are supported by the data collected and analysis provided</p>				ISLO2		ISLO6			ISLO1			ISLO4 ISLO5			ISLO3		
<p>Modifications (Beginning of Term)</p>	<p>Based on a feasibility study or budget analysis, begin the modification planning process for recommended changes. For those changes that cannot be immediately implemented, provide a rationale. Modification strategies may change based on end-of-term improvement plan</p>				ISLO2		ISLO6			ISLO1			ISLO4 ISLO5				ISLO 3	
<p>Improvement Plan (End of Term)</p>	<p>In this stage, you design the improvement plan to be used for the next implementation of each SLO. This plan should address the expected outcomes desired because of the modification changes. Improvement strategies</p>				ISLO2		ISLO6			ISLO1			ISLO4 ISLO5				ISLO 3
