 - [Review Report](#)
 - Based on Jen's findings, it is not going to be possible to do the same kind of assessment that has done with previous Gen. Ed. Studies. Going to be very challenging to review organic samples.
 - Jen's idea- write up a series of questions based on the SLOs and have students complete for extra credit. Do students do better after they have spent time at Truman? Compare students at the beginning and end of their studies. Are there aggregate gains?
 - Action items:
 - Do research on how other schools have addressed researching similar SLOs
 - Send committee a survey of the options

7) MISC
